Frontend developer

2014 - 2015

<http://sensenet.com>

1117 Budapest, Infopark sétány 1

Developing an Enterprise Content Management with online document viewer feature, bulk import / export features with high scalability

Sense/NET API ASP.NET MVC Lucene.NET OData SignalR Kendo UI Scrum

IT Support specialist / User Admin / Web developer

2010 - 2014

<http://tesco.hu>

Budaörs, Kinizsi ut 1, 2040

Managing user accesses for all the systems, participating in integrating new systems and solutions to the company workflow. Created command line tools for IT Support (AD management and reporting, bulk user management, etc...). Developed some independent web applications for managing business processes using

IT Requests

This web application is for managing all of the (beforehand paper-based) IT Requests from the submitting to the closure. It includes a PC Device inventory and a training journal (which is a prerequisite for some application request), the data fields and the workflow phases can change dynamically. It also includes an interface to the HR systems for automatic approver calculation.

PHP MySQL JavaScript Active Directory Microsoft Exchange

PhoneCosts

With this software, the private and company calls are separable and accountable. It includes a corporate phonebook and helps to administrate the device handovers and takeover.

ASP.NET MVC Entity Framework JavaScript

PoolCars

With this software, the private and company calls are separable and accountable. It includes a corporate phonebook and helps to administrate the device handovers and takeover.
